education - brown university

B.Sc. Mathematics - Computer Science

Providence, RI

Sep. 2014 - May 2018

GPA: 4.00

Diverse undergrad education specializing in topics at the intersection of theoretical math, applied math, and computer science.

about me

Originally from MA, I currently live in San Francisco. I enjoy helping people, both through my work and the people immediately around me. I value intentional design and lifelong learning. Outside of tech my interests include sustainable agriculture, trail running, and fermented foods.
