education

Brown Univeristy

Providence, RI   *Sep. 2014 - May 2018*

B.Sc. Mathematics - Computer Science

GPA: 4.00

Diverse undergrad education specializing in the topics at the intersection of math, applied math, and computer science: machine learning, data science, and security.

about me

Originally from Massachusetts, I currently live in San Francisco. I value sustainability, staying active, and being outside as much as I can. I love building things, problem solving, intentional design, and learning new things. I enjoy helping people, both through my work and the people immediately around me.

work and experience

Cisco Meraki

San Francisco, CA   *Sep. 2018 - Present*

Full Stack Software Engineer

- Tech: Ruby on Rails, Git, Postgres, React, Redux
